Post	N/A
Section	N/A
Number of Interns	1

Project Description

The communications team for the Bureau for Food Security (BFS), which leads the U.S. Government's Feed the Future initiative, is looking for an excellent writer, creative thinker and strategic communicator to help design and produce a variety of digital and print communications materials to convey our impact and tell our success stories.

The right intern(s) will have a mix of writing and design skills to produce communications materials ranging from fact sheets, infographics, brochures, reports, content for presentations, and more. Intern should have strong graphic and visual design skills and familiarity with and access to design software like Adobe Creative Suite, Microsoft Publisher and PowerPoint. Intern(s) will work collaboratively with the BFS communications and outreach team to develop creative ideas and materials to communicate progress, both in written form and visually. Intern(s) will be self-starters who can work well in a team and also execute projects on their own in a fast-paced environment that requires flexibility.

This internship is ideal for students interested in communicating how the U.S. Government is contributing to global efforts to drive down hunger and poverty and ensure a food-secure world.

Desired Skills Interests

Additional Information

No prior knowledge of USAID is required, however applicants should have a demonstrable interest in international development and communications. Preference will be given to graduate and advanced undergraduate students.
